OUE COMMERCIAL REAL ESTATE INVESTMENT TRUST
Unaudited Financial Statements and Distribution Announcement for the Second Quarter
2020 and Financial Period from 1 January 2020 to 30 June 2020

Notes to Statements of Financial Position:

(1) Investment properties

OUE C-REIT conducts property valuations on an annual basis. As such, there may be uncertainty relating to the carrying amounts of OUE C-REIT's investment properties as at 30 June 2020 as the carrying amounts are based on the independent valuations as at 31 December 2019, and have not taken into account the impact of the COVID-19 pandemic. The increase in investment properties was due largely to appreciation of the CNY against the SGD between 31 December 2019 and 30 June 2020 and capital expenditure during the period.

(2) Intangible asset

Intangible asset represents the unamortised income support receivable by OUE C-REIT from the Sponsor Group pursuant to the Deeds of Income Support relating to OUE Downtown Office.

(3) Trade and other receivables – Current

At the Group and Trust level, trade and other receivables increased compared to 31 December 2019. This was mainly due to recognition of grant receivable relating to property tax rebate and higher income support receivable for OUE Downtown Office.

(4) Loan from a subsidiary

At the Trust level, the loan from subsidiary as at 30 June 2020 relates to the S\$100.0 million notes issued in June 2020 through the Trust's wholly owned subsidiary, OUE CT Treasury Pte. Ltd., which were on-lent to the Trust.

(5) Financial derivatives

Financial derivatives represent the fair value of the interest rate swaps ("IRS") entered to hedge the floating interest rate exposure of OUE C-REIT Group's borrowings. The movement for the financial period from 31 December 2019 to 30 June 2020 was due to new IRS entered and net changes in the fair value of the IRS during the period.

(6) Trade and other payables – current

At Group level, trade and other payables increased compared to December 2019 mainly due to provision of rental rebates and grant payable relating to property tax rebate recognised. There was also dividend payable to non-controlling interest of S\$6.8 million as at 30 June 2020.

At Trust level, the increase of trade and other payables was mainly due to provision of rental rebates and grant payable relating to property tax rebate recognised.

(7) Current tax liabilities

The increase in current tax liabilities is mainly due to tax provision for 1H 2020.

OUE COMMERCIAL REAL ESTATE INVESTMENT TRUST

Unaudited Financial Statements and Distribution Announcement for the Second Quarter 2020 and Financial Period from 1 January 2020 to 30 June 2020

(8) Unitholders' funds

The decrease in unitholders' funds is mainly due to distribution paid to Unitholders in March 2020 and net movement in the fair value reserve of IRS as at 30 June 2020. This is offset partially by profits for the financial period, new Units issued for base fees payable in Units, and the appreciation of the CNY against the SGD from 31 December 2019 to 30 June 2020.

(9) CPPU holder's funds

On 8 October 2015, 550.0 million CPPUs amounting to S\$550.0 million were issued to Clifford Development Pte. Ltd. (a wholly-owned subsidiary of OUE Limited), the vendor of OUE C-REIT's wholly-owned subsidiary, Beacon Property Holdings Pte. Ltd., as partial satisfaction of the purchase consideration for the acquisition of ORP. The CPPU holder is entitled to a coupon distribution of 1.0% per annum.

To-date, 175.0 million CPPUs had been redeemed, with a balance of 375.0 million CPPUs remain outstanding as at 30 June 2020.

(10) Non-controlling interests

OUE C-REIT holds an 83.33% indirect interest in OUBC. Non-controlling interests represent the equity in OUBC that is not attributable to OUE C-REIT Group.

(1) The weighted average number of Units includes the weighted average potential Units to be issued assuming all the remaining CPPUs were converted at S\$0.7154 per Unit.

550.0 million CPPUs were issued in October 2015 as partial satisfaction of the purchase consideration for the acquisition of ORP. The CPPUs cannot be converted for a period of four years commencing from the date of issue (“Restriction Period”) save in certain limited circumstances and thereafter, not more than one-third of the CPPUs initially issued can be converted in any one year. After the Restriction Period, the CPPUs can be converted into Units at S\$0.7154 per Unit and will impact the EPU upon conversion.

As at 30 June 2020, a total of 375.0 million CPPUs remain convertible. Assuming that these CPPUs are fully converted, 524,182,276 new Units will be issued.

OUE COMMERCIAL REAL ESTATE INVESTMENT TRUST
Unaudited Financial Statements and Distribution Announcement for the Second Quarter 2020 and Financial Period from 1 January 2020 to 30 June 2020

Review of OUE C-REIT Group's performance 2Q 2020 vs 2Q 2019

2Q 2020 revenue of S\$64.3 million and net property income of S\$50.4 million were 23.9% and 23.7% respectively higher compared to that achieved in 2Q 2019. The Commercial segment recorded lower revenue and net property income mainly due to rental rebates granted to tenants in 2Q 2020 under the New Rental Relief Framework for Small and Medium Enterprises ("SME") announced on 5 June 2020 as part of the Fortitude Budget by the Singapore Government. This was partially offset by the inclusion of income from Mandarin Gallery upon completion of the Merger in September 2019.

Revenue and net property income from the Hospitality segment was contributed by Mandarin Orchard Singapore and Crowne Plaza Changi Airport upon completion of the Merger in September 2019.

Other income for current quarter increased to S\$5.4 million as there was an increase in income support in relation to OUE Downtown Office. This was mainly due to lower rental income from OUE Downtown Office as a result of provision of rental relief to SME tenants as part of the Fortitude Budget.

The larger portfolio also resulted in higher manager's management fees, trustee fee and other expenses.

Net finance cost increased S\$4.2 million year-on-year mainly attributable to higher interest cost of S\$4.8 million, resulting from inclusion of OUE H-Trust's finance costs and higher level of borrowings (including loan drawdown to fund the cash consideration for the Merger).

Total return recorded for 2Q 2020 was S\$25.9 million, compared to total return of S\$20.5 million in 2Q 2019.

Review of OUE C-REIT Group's performance 1H 2020 vs 1H 2019

1H 2020 net property income of S\$112.5 million was S\$28.2 million higher than 1H 2019. The Commercial segment recorded higher revenue mainly due to the inclusion of income from Mandarin Gallery upon completion of the Merger in September 2019. This was partially offset by rental rebates granted to tenants under the New Rental Relief Framework for SME as part of the Fortitude Budget in 1H 2020. As a result of the rental rebate, net property income was lower compared to last year.

Revenue and net property income from the Hospitality segment was contributed by Mandarin Orchard Singapore and Crowne Plaza Changi Airport upon completion of the Merger in September 2019.

The larger portfolio also resulted in higher manager's management fees, trustee fee and other expenses.

Net finance cost increased S\$12.8 million year-on-year mainly attributable to higher interest cost of S\$10.4 million, resulting from inclusion of OUE H-Trust's finance costs and higher level of borrowings (including loan drawdown to fund the cash consideration for the Merger).

Consequently, total return for 1H 2020 increased 30.3% to S\$58.8 million, as compared to S\$45.1 million in 1H 2019.

10 Commentary on the competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting period and the next 12 months

Singapore

Based on advance estimates by the Ministry of Trade and Industry (“MTI”), Singapore’s economic growth contracted by 12.6% on a year-on-year (“YoY”) basis in 2Q 2020 weighed by the circuit breaker measures implemented from 7 April to 1 June to slow the spread of COVID-19 as well as weak external demand amidst a global economic downturn caused by the COVID-19 pandemic⁽¹⁾. On a quarter-on-quarter (“QoQ”) seasonally-adjusted annualised basis, the economy declined by 41.2% in 2Q 2020. While the manufacturing sector grew by 2.5% YoY in 2Q 2020, primarily due to a surge in output in the biomedical manufacturing cluster, this was slower than the 8.2% growth in 1Q 2020 as weak external demand and workplace disruptions during the circuit breaker weighed on output in the chemicals, transport engineering and general manufacturing clusters. The services producing industries contracted 13.6% YoY, furthering the 2.4% contraction in 1Q 2020. The escalation of the COVID-19 pandemic worldwide and more severe than expected disruption to external and domestic economic activity resulted in a third downgrade to official GDP growth forecasts in May. MTI projects 2020 GDP growth to be between -7.0% and -4.0%, with significant uncertainty over the duration and severity of the pandemic, as well as the trajectory of economic recovery⁽²⁾.

In 2Q 2020, Singapore office leasing demand was dampened by the weak economic outlook, compounded by the restriction on leasing activities due to the circuit breaker measures. According to CBRE, core CBD Grade A occupancy edged down 0.5 percentage points (“ppt”) QoQ to 97.1% in 2Q 2020 on negative net absorption of 293,040 sq ft. Core CBD Grade A office rents slipped for the second consecutive quarter, down 3.0% QoQ to S\$11.15 per square foot (“psf”) per month in 2Q 2020⁽³⁾. As occupiers look to streamline operating costs, office occupancy and rents are expected to remain under pressure, although the situation is partially mitigated by the limited supply of new Grade A office in the medium term. OUE C-REIT’s portfolio of high-quality and strategically located Singapore office properties, which contributed approximately 55.4% to 2Q 2020 revenue, are expected to continue to achieve rents which are in line with or above market rents. As current expiring rents are below market rents, operating performance is expected to remain resilient.

OUE COMMERCIAL REAL ESTATE INVESTMENT TRUST
Unaudited Financial Statements and Distribution Announcement for the Second Quarter 2020 and Financial Period from 1 January 2020 to 30 June 2020

Due to continued restrictions on inbound short-term visitors, visitor arrivals to Singapore from January to May 2020 decreased by 65.7% YoY to approximately 2.7 million⁽⁴⁾. OUE C-REIT's hotel properties will continue to seek alternative sources of demand, including eldercare workers, inbound travellers serving out Stay-Home Notices, and workers affected by border shutdowns. Staycation bookings by locals, once approved by the authorities, will also augment hotel demand. Under the master lease arrangements of OUE C-REIT's hotel portfolio, the minimum rent component of S\$67.5 million per annum continues to provide downside protection. The hospitality segment contributed 26.3% to total revenue in 2Q 2020.

In 2Q 2020, prime retail rents in Orchard Road corrected 1.9% QoQ to S\$31.05 psf per month⁽³⁾. OUE C-REIT's Singapore retail portfolio, contributing approximately 8.4% to 2Q 2020 revenue, was affected by the circuit breaker measures. With a phased approach to reopening the economy post circuit breaker, most retailers have resumed operations and shopper traffic has rebounded to approximately 70% of pre-COVID-19 levels at Mandarin Gallery. Nonetheless, with continued business uncertainties, the operating environment for OUE C-REIT's retail segment is expected to remain challenging.

China

With the gradual reopening of the economy from end March after the end of lockdown measures and supported by policy stimulus, China has seen an uptick in economic activity. GDP growth rebounded to 3.2% YoY for 2Q 2020 from the contraction in the previous quarter. While retail sales was down 1.8% YoY in June, the contraction was lower than the 2.8% YoY decline in the previous month. For the first six months of 2020, fixed asset investments fell by 3.1% YoY, narrowing from the 6.3% YoY decline for the January to May period. June industrial production rose 4.8% YoY, following 4.4% YoY increase in the previous month⁽⁵⁾. While key economic indicators have trended positively, prospects remain murky due to the global economic slowdown as well as the risk of secondary outbreaks which may hinder a recovery.

While business activity has resumed in Shanghai, office leasing momentum continued to be slow due to economic uncertainty, exacerbated by the pandemic. According to Colliers International, Shanghai CBD Grade A office occupancy remained stable in 2Q 2020 at 85.4%, while rents declined 4.3% QoQ to RMB9.28 psm per day amidst intense leasing competition⁽⁶⁾. The rental outlook is expected to be subdued given the significant office supply in the medium term. The Manager will continue to prioritise tenant retention and active lease management to sustain occupancy at Lippo Plaza, which contributed 9.9% to OUE C-REIT's 2Q 2020 revenue, of which the office component makes up about 72.8% of the property's revenue.

Tenant Support

OUE C-REIT has provided relief measures to eligible tenants across its portfolio during this challenging period. This includes various rental rebates, passing on in full the property tax rebates provided by the Singapore Government, as well as assistance schemes such as flexible payment and rental reduction to eligible tenants.

On 5 June 2020, the Singapore Government announced additional support measures for Small and Medium Enterprises (“SME”) including rental waiver of four months and two months for qualifying SME retail and office tenants respectively, to be co-shared between the Singapore Government and landlords. The rental waivers OUE C-REIT has granted to date will form part of this additional government-mandated support. Currently, the eligibility of tenants and implementation details from the Singapore Government on the mandated relief are still pending.

OUE C-REIT has committed approximately S\$13.8 million of rental rebates to date, excluding an estimated S\$19.9 million of support from the Singapore Government, comprising property tax rebates and mandated share of SME relief.

Overall

In 1H 2020, the Manager has elected to retain approximately S\$13.8 million of distribution comprising tax-exempt income and capital distribution, in view of the on-going uncertainties caused by the COVID-19 pandemic globally. The prudent measure to conserve cash while balancing returns to Unitholders will provide financial flexibility for OUE C-REIT to better address the challenges ahead.

While the COVID-19 pandemic has largely stabilised in Singapore and China at this juncture, the Manager will continue to monitor the situation closely, and is prepared to introduce further initiatives to support OUE C-REIT’s tenants as required. In view of protracted containment measures and weaker global conditions, the Manager will continue to prioritise its efforts on tenant retention through proactive asset management, and manage our capital prudently to maintain financial flexibility, so as to preserve sustainable long term returns for Unitholders.
